

Safety Data Sheet

according to the REACH Regulation (EC) 1907/2006 amended by Regulation (EU) 2020/878 First edition: 13/06/1997 Last revision: 24/04/2024 Supersedes version of: 20/12/2022 Version: 10.0

SECTION 1: Identification of the subst	ance/mixture and of the company/undertaking
1.1. Product identifier	
Product form	: Mixture
Name	: Adheseal 290 ml Beige
Product number	: 01.2448.0880
1.2. Relevant identified uses of the substar	nce or mixture and uses advised against
1.2.1. Relevant identified uses	
Main use category	: Industrial use,Professional use
Use of the substance or preparation	: Unique MS polymer based adhesive and sealant with permanent elasticity and excellent adhesion to many dry and damp surfaces.
1.2.2. Uses advised against	
No additional information available	
1.3. Details of the supplier of the safety dat	ta sheet
PCS Innotec International NV	
Schans 4	
BE - 2480 Dessel T.: +32 (0) 14 32 60 01	
F.: +32 (0) 14 32 60 12	
hse@innotec.eu	
-	

Distributor: Innotec Supplies Ltd. Unit 25 Glenmore Business Park, Telford RD UK - SP2 7GL Salisbury, Wiltshire T.: +44 (0)1722411744 F.: +44 (0)1722411788 info@innotecworld.com

1.4. Emergency telephone number

24h/24h (Telephone advice: English, French, German, Dutch): BIG : +32 (0) 14 58 45 45

SECTION 2: Hazards identification 2.1. Classification of the substance or mixture

Classification according to Regulation (EC) no 1272/2008 (CLP) Not classified

Adverse physicochemical, human health and environmental effects

No additional information available

2.2. Label elements

Labelling according to Regulation (EC) No. 1272/2008 [CLP]

No labelling applicable

2.3. Other hazards

The mixture does not contain substance(s) included in the list established in accordance with Article 59(1) of REACH for having endocrine disrupting properties, or substance(s) are not identified as having endocrine disrupting properties in accordance with the criteria set out in Commission Delegated Regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at a concentration equal to or greater than 0,1 %

SECTION 3: Composition/information on ingredients

3.1. Substances

Not applicable

3.2. Mixtures

This mixture does not contain any substances to be mentioned according to the criteria of section 3.2 of REACH Annex II

Safety Data Sheet

according to the REACH Regulation (EC) 1907/2006 amended by Regulation (EU) 2020/878

bin contact bin		
General advice : Oet medical advice/attention if you feel unwell. Inhalation :: If threathing is difficult, remove vicin to fresh air and keep at rest in a position confortat for breathing. Skin contact :: Cently wash, with plenty of scap and water. Rinse with plenty of water. Eye contact :: FIN EYES: Rinse coutbouely with water for several minutes. Remove contact lenses, if present and easy to do. Confure missing. Alg. Addicational information available : Call a POISON CENTERVACOOF if you feel unwell. Rinse mouth. Drink plenty of water. E Not Tinduce wornting. Alg. Indication of any immediate medical attention and special treatment needed No additional information available Statustional information available : Dry powder. Water spray. Carbon dioxide. Alcohol resistant foam. Sci. Science information available : Dry powder. Water spray. Carbon dioxide. Mechol resistant foam. Sci. Science information available : Dry powder. Water spray. Carbon dioxide. Mechol resistant foam. Sci. Science information available : Dry powder. Water spray. Carbon dioxide. Mechol resistant foam. Sci. Science information available : Dry powder. Water spray. Carbon dioxide. Mechol resistant foam. Sci. Science information available : Dry powder. Water spray. Carbon dioxide. Mechol resistant foam. Sci. Science information available : Dry powder. Water spray. Carbon dioxide. Mechol resistant foam.		
initialation : If breathing is difficult, remove victim to fresh air and keep at rest in a position confortation for breathing. Skin contact : Gentty wash with plenty of scap and water. Rinse with plenty of water. Eye contact : FIN IB YES. Rinse catalously with water for several minutes. Remove contact lenses, if present and asky to do. Contrue rinsing. Ingestion : Call a POISON CENTERVictoor if you feel unwell. Rinse mouth. Drink plenty of water. IN NOT induce working. 42. Most important symptoms and affacts, both acute and delayed No additional information available 43. Indication of any immediate medical attention and special treatment needed No additional information available 5.1. Stringlishing media : Dry powder. Water spray. Carbon dioxide. Alcohol resistant foam. 5.2. Special hazards arising from the substance or mixture Stable excinguishing media Na additional information available : Dry powder. Water spray. Carbon dioxide. Alcohol resistant foam. 5.3. Advice for refrefighters : Dry powder. Water spray or fog for cooling exposed containers. Prevent fire fighting water from entering the environment. 5.1. Advice for refrefighters : Use water spray or fog for cooling exposed containers. Prevent fire fighting water from entering the environment. 6.1. Paronal precautions, protective equipment and emergency protective clothing. Keep upwind. Environmental prevent mouse. 6.1. Paronal precautions		
Sin contact Contry wash with plenty of scop and water. Rinse with plenty of water. Eye contact IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and asy to do. Continue maing. Ingestion Call a POISON CENTERHock of Fyou Feed unwell. Rinse mouth. Drink plenty of water. IN NOT induce vonting. 4.2. Most important symptoms and effects, both acute and delayed Not delayed 4.3. Indication of any immediate medical attention and special treatment needed Not additional information available SECTION 5: Firefighting media Dry powder. Water spray, Carbon dioxide. Alcohol resistant foam. 5.2. Special hazards adress in case of fire Integration set in a sublate of the substance or mixture Flazardous decomposition products in case of fire Integration set in a sublate or mixture Flazardous decomposition products in case of fire Integration set in a substance or mixture Fliefighting instructions Is the environment. Protection during firefighting Is to not enter fire area without proper protective equipment, including respiratory protective equipment. Section 6: Accidental rolease medicase medicase and environment. Protective equipment Protective equipment Refer to protective measures listed in Sections 7 and 8. Entregraphy procedures Equip cleanup crew with proper protection. Entregr	General advice	: Get medical advice/attention if you feel unwell.
Eye contact : IF IN EYES: Rnse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. ingestion : Call a POISON CENTER/doctor if you feel unwell. Rinse mouth. Drink plenty of water. E NoT induce worntling. 4.2. Most important symptoms and effects, both acute and delayed No additional information available 4.3. Indication of any immediate modical attention and special treatment needed No additional information available 5.1. Extinguishing modia : Dry powder. Water spray. Carbon dioxide. Alcohol resistant foam. 5.2. Special hazards arising from the substance or mixture treatment needed No additional information available 5.3. Advice for firofighters : Nitrogen or mixture treatment needed Firofighting instructions : Use water spray or fog for cooling exposed containers. Prevent fire fighting water from entering the environment. Protection during firefighting: : Do not enter fire area without proper protective equipment, including respiratory protect Statistic exponence : Wear suitable protective clohing. Keep upwind. 8.1. For ono-mergency personnel : Refer to protective measures listed in Sections 7 and 8. Protective equipment : Equip cleanup crew with proper protection. Emergency procedures : Equip cleanup crew with proper protection. Emergency procodures : Equip cleanup crew with proper	nhalation	: If breathing is difficult, remove victim to fresh air and keep at rest in a position comfortable for breathing.
Eye contact : IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. ingestion : Call a POISON CENTER/doctor if you feel unwell. Rinse mouth. Drink plenty of water. E NOT induce worntling. 4.1. Most important symptoms and effects, both acute and delayed	Skin contact	: Gently wash with plenty of soap and water. Rinse with plenty of water.
ingestion : Call a POISON CENTER/doctor if you real unwell. Rinse mouth. Drink plenty of water. DNT induce worniting. 4.2. Most important symptoms and effects, both acute and delayed So additional information available 5.3. Indication of any immediate medical attention and special treatment needed So additional information available 5.4. Extinguishing media : Dry powder. Water spray. Carbon dioxide. Alcohol resistant foam. 5.3. Special hazards arising from the substance or mixture So additional information available 5.3. Advice for firefighters : Nitrogen oxides. Carbon monoxide. Carbon dioxide. metallic oxide. 5.3. Advice for firefighters : So not enter fire area without proper protective equipment, including respiratory protect SECTION 5: Accidental release measures : Waar suitable protective clothing. Keep upwind. S1.1. For on-emergency personnel : Waar suitable protective clothing. Keep upwind. S1.1. For on-emergency personnel : Evacuate unnecessary personnel. S1.2. For emergency reprodures : Evacuate unnecessary personnel. S1.3. Mothods and material for containment and cleaning up : So advice spills with inert solids, such as day or dialomaceous earth as soon as possible This product and its container must be disposed of in a safe way, and as periocal legislation. S1.1. For on-emergency condures : Ventilate area. S2.5. Environmental precautions	Eye contact	: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if
No additional information available 3. didication of any immediate medical attention and special treatment needed No additional information available SECTION 5: Firefighting measures 5.1. Extinguishing media Suitable extinguishing media Propondes. Carbon monoxide. Carbon dioxide. metallic oxide. S.3. Advice for firefighting Firefighting instructions : Use water spray or fog for cooling exposed containers. Prevent fire fighting water from entering the environment. Protection during firefighting : Do not enter fire area without proper protective equipment, including respiratory protective scalable protective cothing. Keep upwind. S.1.1 For non-emergency personnel : Wear suitable protective cothing. Keep upwind. S.1.2 For emergency responders : Equip cleanup crew with proper protection. Emergency procedures : Ventilate area. S.2.4 Cordination : Equip cleanup crew with proper protection. Emergency procedures : Ventilate area.	Ingestion	: Call a POISON CENTER/doctor if you feel unwell. Rinse mouth. Drink plenty of water. Do
4.3. Indication of any immediate medical attention and special treatment needed Vo additional information available SECTION 5: Firefighting measures 5.1. Extinguishing media : Dry powder. Water spray. Carbon dioxide. Alcohol resistant foam. 5.2. Special hazards arising from the substance or mixture Hazardous decomposition products in case of fire : Nirogen oxides. Carbon monoxide. Carbon dioxide. metallic oxide. 5.3. Advice for firefighters : Use water spray or fog for cooling exposed containers. Prevent fire fighting water from entering the environment. Protection during firefighting : Do not enter fire area without proper protective equipment, including respiratory protect SECTION 5: Accidential release measures : Wear suitable protective clothing. Keep upwind. 61.1 For on-emergency procedures : Evacuate unnecessary personnel. Protective equipment : Equip cleanup crew with proper protection. Emergency procedures : Ventilate area. 62. Environmental precautions : Ventilate area. 63. Methods and material for containment and cleaning up : Social up spills with inter solids, such as clay or diatomaceous earth as soon as possible This provide adequate ventilation. 63. Environmental precautions : Equip cleanup crew with proper protective equipment : Equip cleanup crew with proper protection. 64. Reference to		both acute and delayed
No additional information available SECTION 5: Firefighting measures 5.1. Extinguishing media Suitable extinguishing media Suitable extinguishing media Suitable extinguishing media Suitable extinguishing media S.2. Special hazarda arising from the substance or mixture Hazardous decomposition products in case of fire i Nitogen exides. Carbon monoxide. Carbon dioxide. Metallic exide. 5.3. Advice for firefightes Firefighting instructions Use water spray or fog for cooling exposed containers. Prevent fire fighting water from entering the environment. Protection during firefighting Do not enter fire area without proper protective equipment, including respiratory protect SECTION 6: Accidental release measures 6.1. Personal precautions, protective equipment and emergency procedures General measures K.4. Personal precautions, protective equipment and emergency procedures General measures K.4. Suitable extinguishing media : Dry powder. Water spray. Carbon dioxide. Alcohol resistant foam. 5.2. Special hazards arising from the substance or mixture Hazardous decomposition products in case of fire : Nitrogen oxides. Carbon monoxide. Carbon dioxide. metallic oxide. 5.3. Advice for firefighters Firefighting instructions : Use water spray or fog for cooling exposed containers. Prevent fire fighting water from entering the environment. Protection during firefighting : Do not enter fire area without proper protective equipment, including respiratory protect SECTION 6: Accidental release measures 6.1. Personal precautions, protective equipment and emergency procedures General measures : Wear suitable protective clothing. Keep upwind. 6.1.1 for non-emergency personnel Protective equipment : Refer to protective measures listed in Sections 7 and 8. Emergency procedures 6.1. Per one-mergency responders Protective equipment : Equip cleanup crew with proper protection. Emergency procedures 6.2. Environmental precautions Protective addition and material for containment and cleaning up Methods for cleaning up		
5.2. Special hazards arising from the substance or mixture Hazardous decomposition products in case of fire : Nitrogen oxides. Carbon monxide. Carbon dioxide. metallic oxide. 5.3. Advice for firefighting : Use water spray or fog for cooling exposed containers. Prevent fire fighting water from entering the environment. Protection during firefighting : Do not enter fire area without proper protective equipment, including respiratory protective sequipment and emergency procedures 6.1. Personal precautions, protective equipment and emergency procedures 6.1. Personal precautions, protective equipment and emergency procedures 6.1. Personal precautions, protective equipment and emergency procedures : Wear suitable protective clothing. Keep upwind. 6.1. Personal precautions : Evacuate unnecessary personnel. Protective equipment : E effer to protective measures listed in Sections 7 and 8. Emergency procedures : Ventilate area. 6.2. Environmental procautions Protective equipment Provent entry to severs and public waters. Notify authorities if liquid enters severs or public waters. 6.3. Advice Adv up spills with inert solids, such as clay or diatomaceous earth as soon as possible This product and its container must be disposed of in a safe way, and as per local legislation. Other information : Provide adequate ventilation. 6.4. Reference to other sections : Wash hands and other exposed areas with mild soap and wate		
Hazardous decomposition products in case of fire in the solution of the soluti	Suitable extinguishing media	: Dry powder. Water spray. Carbon dioxide. Alcohol resistant foam.
5.3. Advice for firefighters : Use water spray or fog for cooling exposed containers. Prevent fire fighting water from entering the environment. Protection during firefighting : Do not enter fire area without proper protective equipment, including respiratory protectiv SECTION 6: Accidental release measures : Wear suitable protective clothing. Keep upwind. S.1. Personal precautions, protective equipment and emergency procedures : Sections 7 and 8. Seneral measures : Wear suitable protective measures listed in Sections 7 and 8. Sint. For one-mergency personnel : Evacuate unnecessary personnel. Protective equipment : Refer to protective measures listed in Sections 7 and 8. Emergency procedures : Evacuate unnecessary personnel. S.1.2. For emergency responders : Ventilate area. S.2. Environmental precautions : Secure and the information if figuid enters sewers or public waters. S.3. Methods and material for containment and cleaning up : Soak up spills with inert solids, such as clay or diatomaceous earth as soon as possible This product and its container must be disposed of in a safe way, and as per local legislation. Other information : Provide adequate ventilation. S.4. Reference to other sections : Soak up spills with inert solids, such as clay or diatomaceous earth as soon as possible This product and its container must be disposed of in a safe way, and as per local legislation. <	5.2. Special hazards arising from the substa	ance or mixture
Firefighting instructions : Use water spray of 0g for cooling exposed containers. Prevent fire fighting water form entering the environment. Protection during firefighting : Do not enter fire area without proper protective equipment, including respiratory protective sections, protective equipment and emergency procedures Sector on emergency personnel : Wear suitable protective clothing. Keep upwind. Sct.1. For non-emergency personnel : Refer to protective measures listed in Sections 7 and 8. Energinency procedures : Evacuate unnecessary personnel. Sct.2. For emergency responders : Venilate area. Protective equipment : Equip cleanup crew with proper protection. Emergency procedures : Venilate area. Sct.2. Environmental precautions : Venilate area. Sct.3. Methods and material for containment and cleaning up : Soak up spills with inert solids, such as clay or diatomaceous earth as soon as possible This product and its container must be disposed of in a safe way, and as per local legislation. Other information : Provide adequate ventilation. Sct.4. Percence to other sections : Wash hands and other exposed areas with mild soap and water before eating, drinking growing work. 7.1. Precautions for safe storage, including any incompatibilities : The floor of the dept should be impermeable and designed to form a water-light basin. Store in a velowell-wentilale indice. Trotect ordicines. Keep only in		
Firefighting instructions : Use water spray or fog for cooling exposed containers. Prevent fire fighting water form entering the environment. Protection during firefighting : Do not enter fire area without proper protective equipment, including respiratory protective equipment, including respiratory protective equipment and emergency procedures Section during firefighting : Wear suitable protective clothing. Keep upwind. Sct.1. For non-emergency personnel : Wear suitable protective clothing. Keep upwind. Sct.1. For non-emergency personnel : Evacuate unnecessary personnel. Sct.2. For emergency responders : Evacuate unnecessary personnel. Sct.2. Environmental precautions : Ventilate area. Sc.3. Methods and material for containment and cleaning up : Soak up spills with inert solds, such as clay or diatomaceous earth as soon as possible This product and its container must be disposed of in a safe way, and as per local legislation. Cher information : Provide adequate ventilation. Sc.4. Reference to other sections : Wash hands and other exposed areas with mild soap and water before eating, drinking moking work. Sc.2. Conditions for safe storage, including any incompatibilities : Wash hands and other exposed areas with mild soap and water before eating, drinking moking work. Sc.3. Methods for cleaning, see section 13. : Wash hands and other exposed areas with mild soap and water before eating, drinking sonking and when leaving work. </td <td>5.3. Advice for firefighters</td> <td></td>	5.3. Advice for firefighters	
SECTION 6: Accidental release measures 6.1. Personal precautions, protective equipment and emergency procedures General measures : Wear suitable protective clothing. Keep upwind. 6.1.1. For non-emergency personnel Protective equipment : Refer to protective measures listed in Sections 7 and 8. Emergency procedures : Evacuate unnecessary personnel. 6.1.2. For emergency responders Protective equipment : Equip cleanup crew with proper protection. Emergency procedures : Ventilate area. 6.2. Environmental precautions Prevent entry to sewers and public waters. 6.3. Methods and material for containment and cleaning up : Soak up spills with inert solids, such as clay or diatomaceous earth as soon as possible This product and its container must be disposed of in a safe way, and as per local legislation. Other information : Provide adequate ventilation. 6.4. Reference to other sections : Stable in use and storage conditions as recommended in item 7. Concerning personal protective equipment to use, see section 8. Concerning tisposal elimination after cleaning, see section 13. SECTION 7: Handling and storage : 7.1. Precautions for safe storage, including any incompatibilities Technical condition(s) : The floor of the depot should be impermeable and designed to form a water-tight basin. Store in a w		
6.1. Personal precautions, protective equipment and emergency procedures General measures : Wear suitable protective clothing. Keep upwind. 5.1.1. For non-emergency personnel : Refer to protective measures listed in Sections 7 and 8. Protective equipment : Evacuate unnecessary personnel. 6.1.2. For emergency responders : Equip cleanup crew with proper protection. Protective equipment : Equip cleanup crew with proper protection. Emergency procedures : Ventilate area. 6.2. Environmental precautions : Ventilate area. 6.3. Methods and material for containment and cleaning up Wethods for cleaning up Wethods for cleaning up : Soak up spills with intert solids, such as clay or diatomaceous earth as soon as possible This product and its container must be disposed of in a safe way, and as per local legislation. Cother information : Provide adequate ventilation. 6.4. Reference to other sections : Stable in use and storage conditions as recommended in item 7. Concerning personal protective equipment to use, see section 8. Concerning disposal elimination after cleaning, see section 13. SECTION 7: Handling and storage : Wash hands and other exposed areas with mild soap and water before eating, drinking smoking and when leaving work. 7.2. Conditions for safe storage, including any incompatibilities reychical condition	Protection during firefighting	: Do not enter fire area without proper protective equipment, including respiratory protection
6.1.1. For non-emergency personnel Protective equipment : Refer to protective measures listed in Sections 7 and 8. Emergency procedures : Evacuate unnecessary personnel. 6.1.2. For emergency responders : Equip cleanup crew with proper protection. Emergency procedures : Ventilate area. 6.2. Environmental precautions : Ventilate area. 6.3. Methods and material for containment and cleaning up : Soak up splits with inert solids, such as clay or diatomaceous earth as soon as possible This product and its container must be disposed of in a safe way, and as per local legislation. Other information : Provide adequate ventilation. 6.4. Reference to other sections : Soak up splits with inert solids, such as clay or diatomaceous earth as soon as possible This product and its container must be disposed of in a safe way, and as per local legislation. Other information : Provide adequate ventilation. 6.4. Reference to other sections : Soak up splits with inert solids, such as clay or diatomaceous earth as soon as possible This product and its container must be disposed of in a safe way, and as per local legislation. No additional information available

SECTION 8: Exposure controls/personal protection 8.1. Control parameters

8.1.1 National occupational exposure and biological limit values

No additional information available

Safety Data Sheet

according to the REACH Regulation (EC) 1907/2006 amended by Regulation (EU) 2020/878

8.1.2. Recommended monitoring procedures

No additional information available

8.1.3. Air contaminants formed

No additional information available

8.1.4. DNEL and PNEC No additional information available

8.1.5. Control banding

No additional information available

8.2. Exposure controls

8.2.1. Appropriate engineering controls

Appropriate engineering controls:

Ensure good ventilation of the work station.

8.2.2. Personal protection equipment

Personal protective equipment:

Gloves. Safety glasses.

Personal protective equipment symbol(s):

8.2.2.1. Eye and face protection

Eye protection:

Wear security glasses which protect from splashes

8.2.2.2. Skin protection

Skin protection:

Wear suitable protective clothing

Hand protection:

In case of repeated or prolonged contact wear gloves. Where hand contact with the product may occur, the use of gloves (approved according to the EN374 standard) made from the following materials may provide suitable chemical protection: Nitrile rubber. For continuous contact we recommend gloves with breakthrough time of more than 240 minutes with preference for > 480 minutes. For short-term/splash protection we recommend the same, but recognise that suitable gloves offering this level of protection may not be available. In this case a lower breakthrough time may be acceptable as long as appropriate glove maintenance and replacement regimes are rigorously followed. Glove thickness is not a good predictor of glove resistance to a chemical as it is dependent on the exact composition of the glove material. Depending on model and material, glove thickness generally should be greater than 0,35 mm. Suitability and durability of a glove is dependent on usage (= frequency and duration of contact), chemical resistance of glove material, dexterity. Always seek advice from glove suppliers. . Contaminated gloves should be replaced. Personal hygiene is a key element of effective hand care. Gloves must only be worn on clean hands. After using gloves, hands should be washed and dried thoroughly.

8.2.2.3. Respiratory protection

Respiratory protection:

No special protection required where adequate ventilation is maintained

8.2.2.4. Thermal hazards

No additional information available

8.2.3. Environmental exposure controls

No additional information available

SECTION 9: Physical and chemical properties 9.1. Information on basic physical and chemical properties		
Physical state	: Liquid	
Colour	: Beige.	
Appearance	: Viscous.	
Odour	: slight.	
Odour threshold	: Not available	
Melting point/melting range	: Not available	

Safety Data Sheet

according to the REACH Regulation (EC) 1907/2006 amended by Regulation (EU) 2020/878

Freezing point	: Not available
Boiling point/range	: Not available
Flammability	: Not available
Explosive limits	: Not available
Lower explosion limit	: Not available
Upper explosion limit	: Not available
Flash point	: > 150 °C
Auto-ignition temperature	: Not self-igniting
Decomposition temperature	: > 250 °C
рН	: Not available
Viscosity, kinematic	: Not available
Solubility	: Water: Not miscible or difficult to mix.
Partition coefficient n-octanol/water (Log Kow)	: Not available
Vapour pressure	: Not available
Vapour pressure at 20 °C	: Not available
Density	: Not available
Relative density (water = 1)	: 1,5 (20 °C)
Vapour density	: Not available
Particle characteristics	: Not applicable
9.2. Other information	

9.2.1. Information with regard to physical hazard classes No additional information available

9.2.2. Other	safety characteristics
	C)

V.O.C. (V.O.S.)		: 0,2 g/l

SECTION 10: Stability and reactivity
10.1. Reactivity
No additional information available
10.2. Chemical stability
Stable under normal conditions.
10.3. Possibility of hazardous reactions
No additional information available
10.4. Conditions to avoid
No additional information available
10.5. Incompatible materials
No additional information available
10.6. Hazardous decomposition products
CO. CO2. NOx.

SECTION 11: Toxicological information			
11.1. Information on hazard classes as defined in Regulation (EC) No 1272/2008			
Acute toxicity (oral)	: Not classified		
Acute toxicity (dermal)	: Not classified		
Acute toxicity (inhalation)	: Not classified		
Additional information	: Based on available data, the classification criteria are not met		
Skin corrosion/irritation	: Not classified		
Additional information	: Based on available data, the classification criteria are not met		
Serious eye damage/irritation	: Not classified		
Additional information	: Based on available data, the classification criteria are not met		
Respiratory or skin sensitisation	: Not classified		
Additional information	: Based on available data, the classification criteria are not met		
Germ cell mutagenicity	: Not classified		
Additional information	: Based on available data, the classification criteria are not met		
Carcinogenicity	: Not classified		
Additional information	: Based on available data, the classification criteria are not met		
Reproductive toxicity	: Not classified		
Additional information	: Based on available data, the classification criteria are not met		

Safety Data Sheet

according to the REACH Regulation (EC) 1907/2006 amended by Regulation (EU) 2020/878

STOT-single exposure	: Not classified
Additional information	: Based on available data, the classification criteria are not met
STOT-repeated exposure	: Not classified
Additional information	: Based on available data, the classification criteria are not met
Aspiration hazard	: Not classified
Additional information	: Based on available data, the classification criteria are not met
11.2. Information on other hazards	

No additional information available

lazardous to the aquatic environment, short–term acute)	: Not classified
lazardous to the aquatic environment, long–term chronic)	: Not classified
2.2. Persistence and degradability	
lo additional information available	
2.3. Bioaccumulative potential	
lo additional information available	
2.4. Mobility in soil	
lo additional information available	
2.5. Results of PBT and vPvB assessment	
lo additional information available	
2.6. Endocrine disrupting properties	
lo additional information available	
2.7. Other adverse effects	
dditional information	: Avoid release to the environment.

13.1. Waste treatment methods	
Regional waste regulation	: Disposal must be done according to official regulations.
Waste / unused products	: Dispose of the small quantities as household waste.
European List of Waste (LoW, EC 2000/532)	: 08 04 10 - waste adhesives and sealants other than those mentioned in 08 04 09 15 01 02 - plastic packaging

SECTION 14: Transport informatio	n	
In accordance with ADR / IMDG / IATA		
14.1. UN number or ID number		
UN-No. (ADR)	: Not applicable	
UN-No. (IMDG)	: Not applicable	
UN-No. (IATA)	: Not applicable	
14.2. UN proper shipping name		
Proper Shipping Name (ADR)	: Not applicable	
Proper Shipping Name (IMDG)	: Not applicable	
Proper Shipping Name (IATA)	: Not applicable	
14.3. Transport hazard class(es)		
ADR		
Transport hazard class(es) (ADR)	: Not applicable	
IMDG		
Transport hazard class(es) (IMDG)	: Not applicable	
ΙΑΤΑ		
Transport hazard class(es) (IATA)	: Not applicable	
14.4. Packing group		
Packing group (ADR)	: Not applicable	
Packing group (IMDG)	: Not applicable	
Packing group (IATA)	: Not applicable	
14.5. Environmental hazards		
Dangerous for the environment	: No	

Safety Data Sheet

according to the REACH Regulation (EC) 1907/2006 amended by Regulation (EU) 2020/878

Marine pollutant

Further information

: No

: No supplementary information available

14.6. Special precautions for user

Overland transport

Not applicable

Transport by sea

Not applicable

Air transport

Not applicable

14.7. Maritime transport in bulk according to IMO instruments

Not applicable

SECTION 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

15.1.1. EU Regulations

REACH Annex XVII (Restriction List)

Contains no substance(s) listed on REACH Annex XVII (Restriction Conditions)

REACH Annex XIV (Authorisation List)

Contains no substance(s) listed on REACH Annex XIV (Authorisation List)

REACH Candidate List (SVHC)

Contains no substance(s) listed on the REACH Candidate List

PIC Regulation (Prior Informed Consent)

Contains no substance(s) listed on the PIC list (Regulation EU 649/2012 concerning the export and import of hazardous chemicals)

POP Regulation (Persistent Organic Pollutants)

Contains no substance(s) listed on the POP list (Regulation EU 2019/1021 on persistent organic pollutants)

Ozone Regulation (1005/2009)

Contains no substance(s) listed on the Ozone Depletion list (Regulation EU 1005/2009 on substances that deplete the ozone layer)

VOC Directive (2004/42)

V.O.C. (V.O.S.) : 0,2 g/l

Explosives Precursors Regulation (2019/1148)

Contains no substance(s) listed on the Explosives Precursors list (Regulation EU 2019/1148 on the marketing and use of explosives precursors)

Drug Precursors Regulation (273/2004)

Contains no substance(s) listed on the Drug Precursors list (Regulation EC 273/2004 on the manufacture and the placing on market of certain substances used in the illicit manufacture of narcotic drugs and psychotropic substances)

15.1.2. National regulations

No additional information available

15.2. Chemical safety assessment

No chemical safety assessment has been carried out

	REACH = Registration, Evaluation, Authorisation and Restriction of Chemicals	

Safety Data Sheet

according to the REACH Regulation (EC) 1907/2006 amended by Regulation (EU) 2020/878

Abbreviations ar	nd acronyms:
	STOT RE = specific target organ toxicity repeated exposure
	STEL = Short term exposure limit
	RID = Règlement international concernant le transport des marchandises dangereuses par chemin de fer (Regulations Concerning the International Transport of Dangerous Goods by Rail).
	STOT SE = specific target organ toxicity single exposure
	SVHC = Substance of Very High Concern
	TLV = Threshold Limit Value
	TRGS = Technischen Regeln für Gefahrstoffe
	TWA = time weighted average
	UEL = Upper Explosion Limit
	VLA-EC = valores límite ambientales para la exposición de corta duración
	VLA-ED = valores límite ambientales para la exposición diaria
	VLE = Valeur Limite d'exposition
	VME = Valeur Limite de Moyenne d'exposition
	VOC = Volatile Organic Compounds
	vPvB = very Persistent and very Bioaccumulative
	WGK = Wassergefärhdungsklasse

Disclaimer with regard to REACH:

The information provided in this Safety Data Sheet is consistent with the information in the Chemical Safety Report, as far as this information was available at the time of compilation (see last revision date).

Disclaimer:

The information of this Safety Data Sheet is based on the present state of our knowledge and on current EC and national laws, as the users' working conditions are beyond our knowledge and control. The user is always responsible for ensuring that the requirements of relevant legislation are complied with. The information contained in this Safety Data Sheet provides guidance on health, safety and environmental aspects of the product and should not be construed as any guarantee of technical performance or suitability for particular applications. The information provided relates only to the specific product designated and may not be valid for such product used in combination with any other product. The product must not be used for any purposes other than those specified without first obtaining written handling instructions.
