AIR PURIFIER

Ultrasonic Deodorizer

for the Interior of Vehicles

Neutralizes the ozone after an ozone treatment with the Aircomatic® III

Wynn's Air Purifier Ultrasonic Deodorizer removes and neutralizes odours and bad smells in vehicles, containers, boats and many other places.

Properties

- ✓ Neutralizes bad smells by means of a chemical reaction with their molecules.
- ✓ Instantly removes bad smells like cigarette smoke, pet smell, body odours, garbage, onion, garlic, food smells, spilled food, vomit, smell of mildew and damp, wet clothing.
- ✓ Long lasting effect by means of the molecular technology, which neutralizes the smell molecules.
- ✓ Does not mask the smell, but eliminates it.
- ✓ Due to the fine nebulisation with the Wynn's Aircomatic® II or III the entire space is treated.
- ✓ Removes bad smells from fabrics, e.g. from furniture, seats in vehicles, boats, carpet and curtains.
- ✓ In combination with the ozone function on the Aircomatic® III, it creates even a better result and succeeds to neutralize even the worst smells.
- ✓ Neutralizes immediately the remaining ozone (quenching agent) in the vehicle interior after an ozone treatment with the Aircomatic® III, so that safe re-entry of the car is assured.
- ✓ Water-carried, non-toxic, non-flammable, ready-to-use deodorizer.
- ✓ It leaves a fresh delicate perfume.
- ✓ Does not leave stains.
- ✓ For exclusive use with the Wynn's Aircomatic® II or III equipment.

Applications

- ✓ Interior and trunk of cars, trucks, boats, buses, caravans and containers.

Product specifications

Directions

Depending on the degree of fouling three different cleaning options with the Aircomatic® II or III are possible:

- 1) Only Air Purifier: treatment time 10 minutes.
- 2) With ozone function 15 minutes + Air Purifier 10 minutes = treatment time 25 minutes
- 3) With ozone function 30 minutes + Air Purifier 10 minutes = treatment time 40 minutes

See manual of Aircomatic® II or III.
